

A screenshot of a web browser showing a search results page. The browser's address bar displays the URL "http://127.0.0.1:5500/gallery.html". The page has a navigation bar with four links: "LOGO", "Gallery", "Memes", and "About". Below the navigation bar, there is a search bar with the text "SEARCH" inside. To the right of the search bar, the search results are displayed as "funny ANIMAL men woman ...more". Below the search results, there is a grid of image placeholders. The first row contains four placeholders, and the second row contains four placeholders. The third row contains three placeholders. The placeholders are represented by light gray rectangles with the word "Image" centered inside them.

Select IMAGE

Edit Meme

Three rectangular buttons stacked vertically. The top button is light gray with the text 'Save'. The middle button is light gray with the text 'Download'. The bottom button is light gray with the text 'Share on Facebook'.

Image Gallery

Click any image of the **Image-Gallery** to be directed to **Meme-Editor** presenting the clicked image and then create a new meme by adding text and stickers to the image

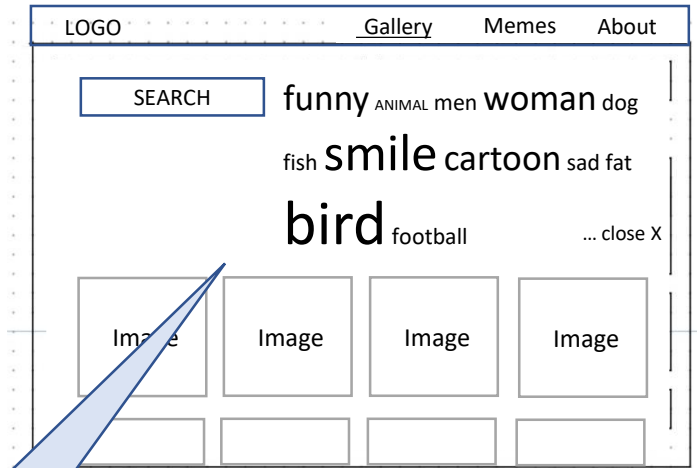

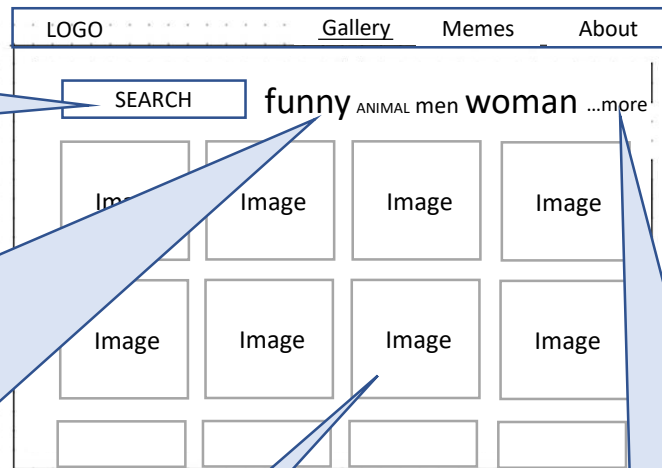

Meme-Editor

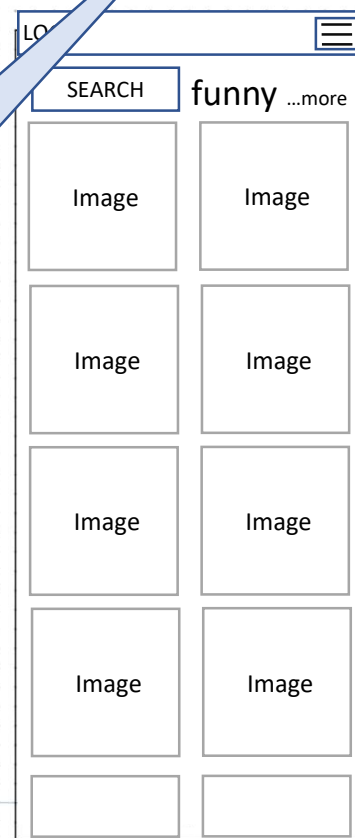

Search key words or
image name

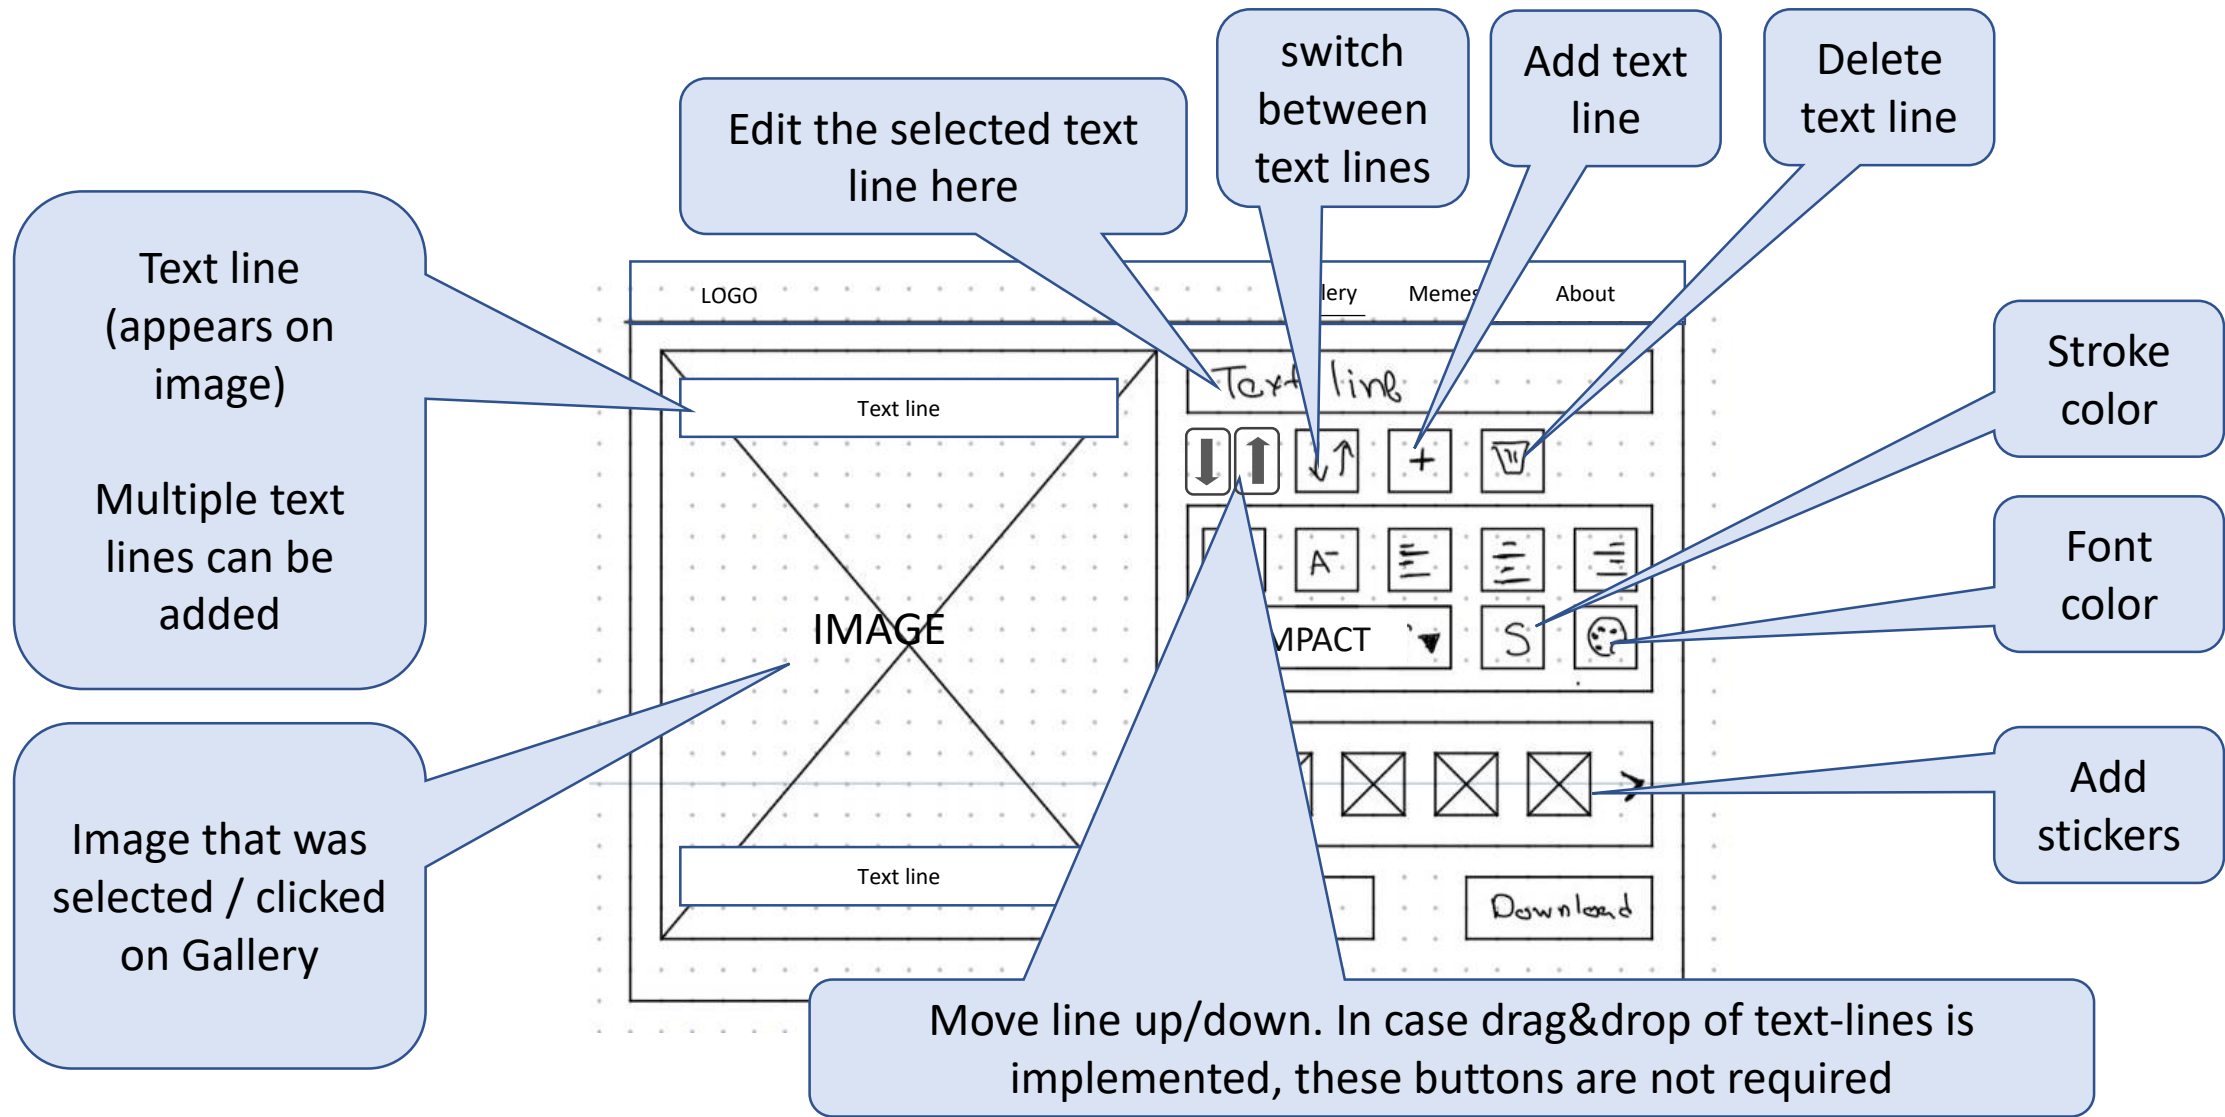

Filter images by clicking
key word. Word SIZE
becomes bigger as
many searches / clicks
of that word are
performed
Line can present a
limited amount of
words due to its size

Images shall appear
square even if they are
at other aspect ratio
(clipped)

Click "more" to see a list
of up to 3 lines of more
words

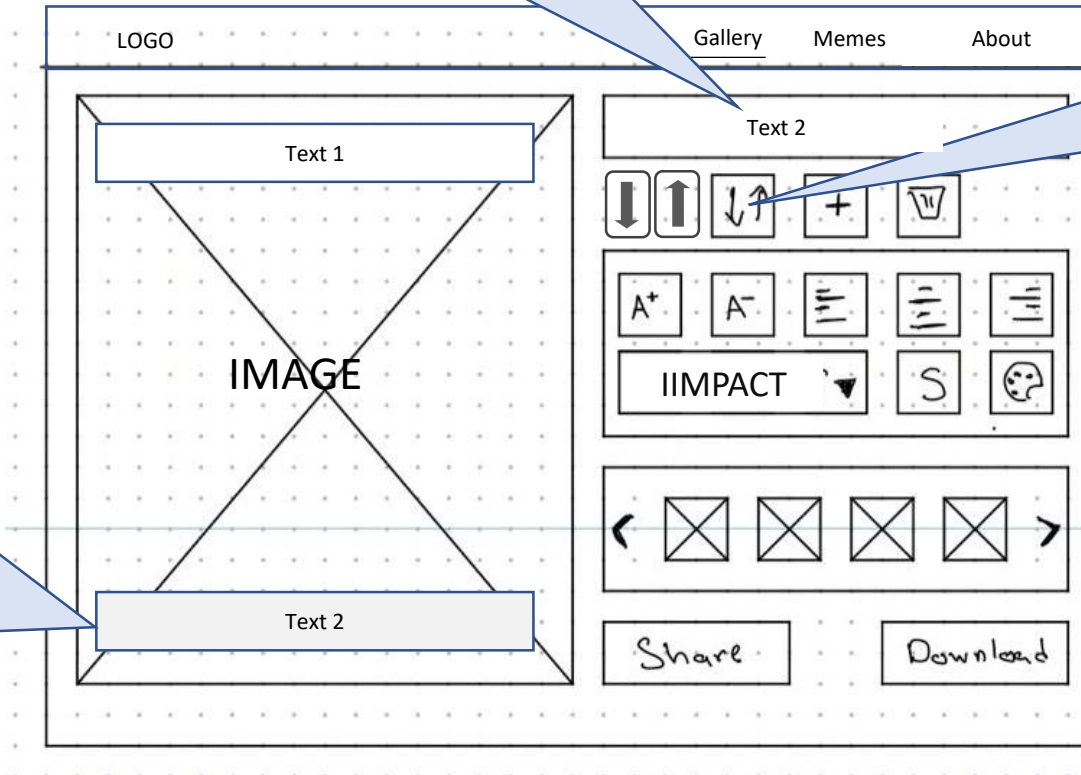

TextBox contains the selected line text

Selected line is highlighted for 3 seconds.

Line can be highlighted either by clicking it directly or by using the "Switch Line" button

Clicking "switch line" will move to next text line and highlight it for 3 seconds

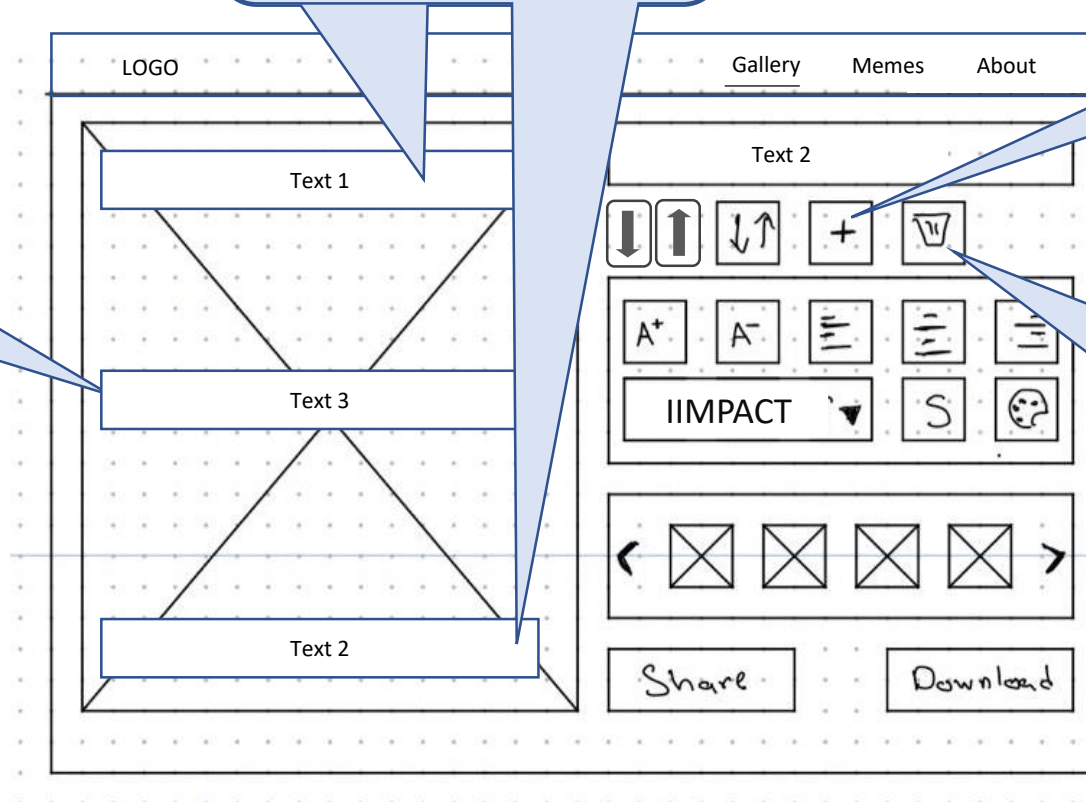

2 first lines (top and bottom) are the initial state

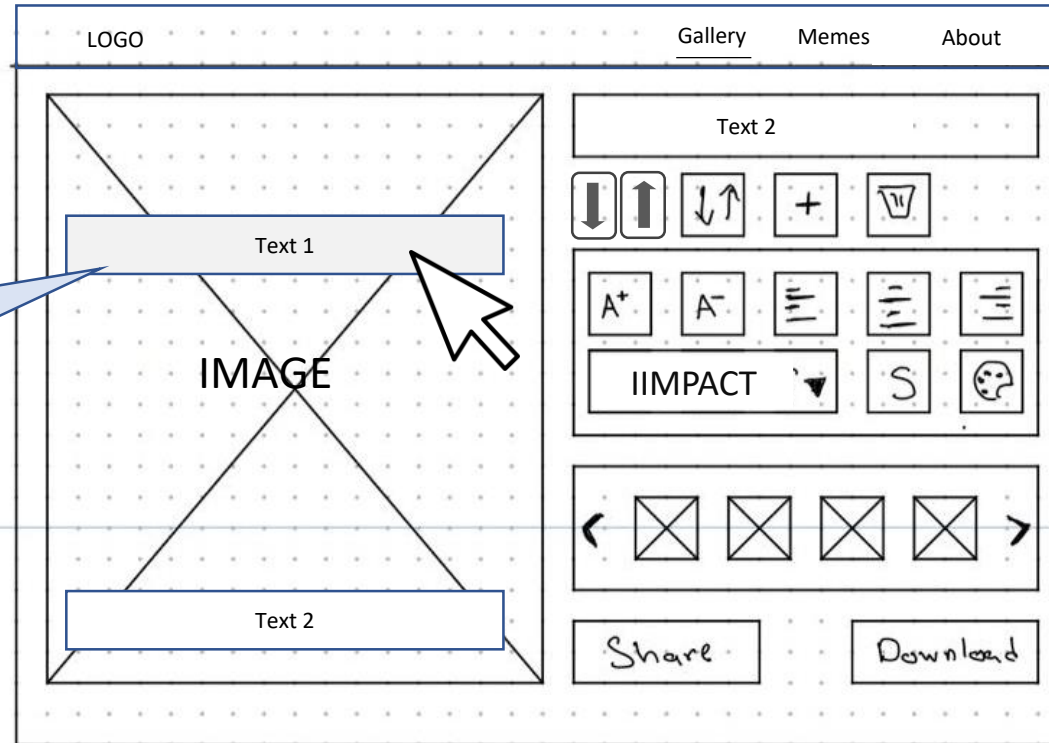

Add new text line
an unlimited amount
of text lines can be
added

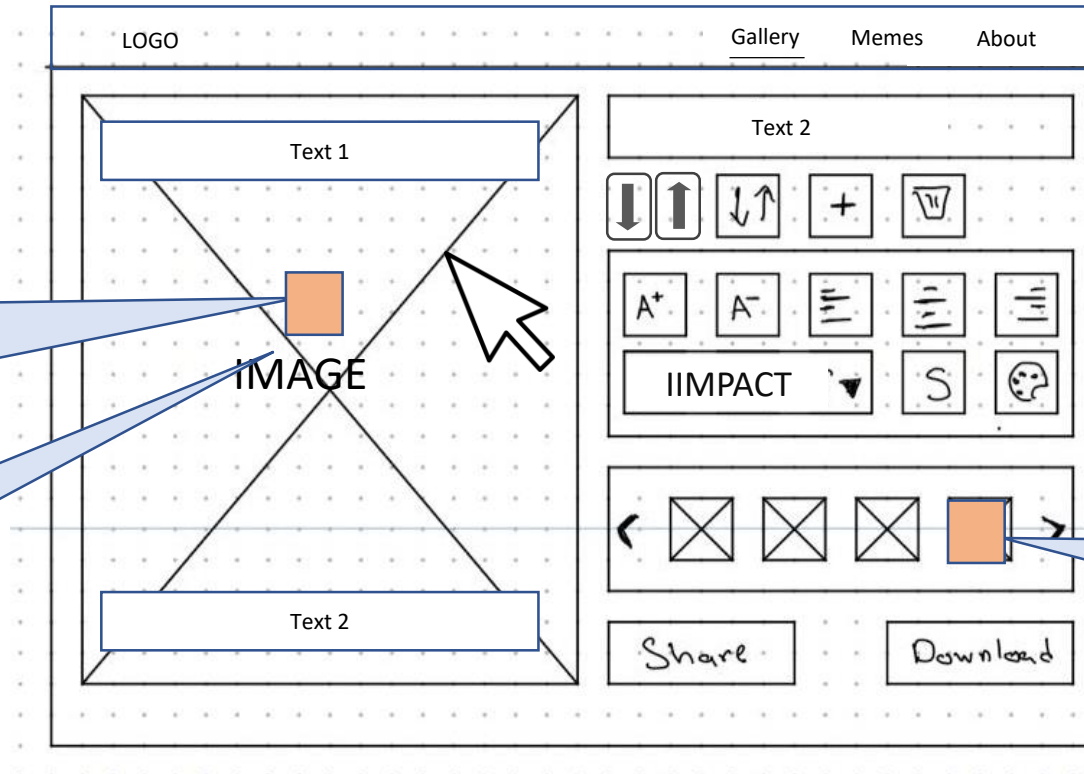

Any additional text
line (above the first
two lines) is located at
center

Delete the selected
text line (or sticker)
All text lines can be
deleted including the
first two lines

Lines can be moved
up / down using
mouse/finger

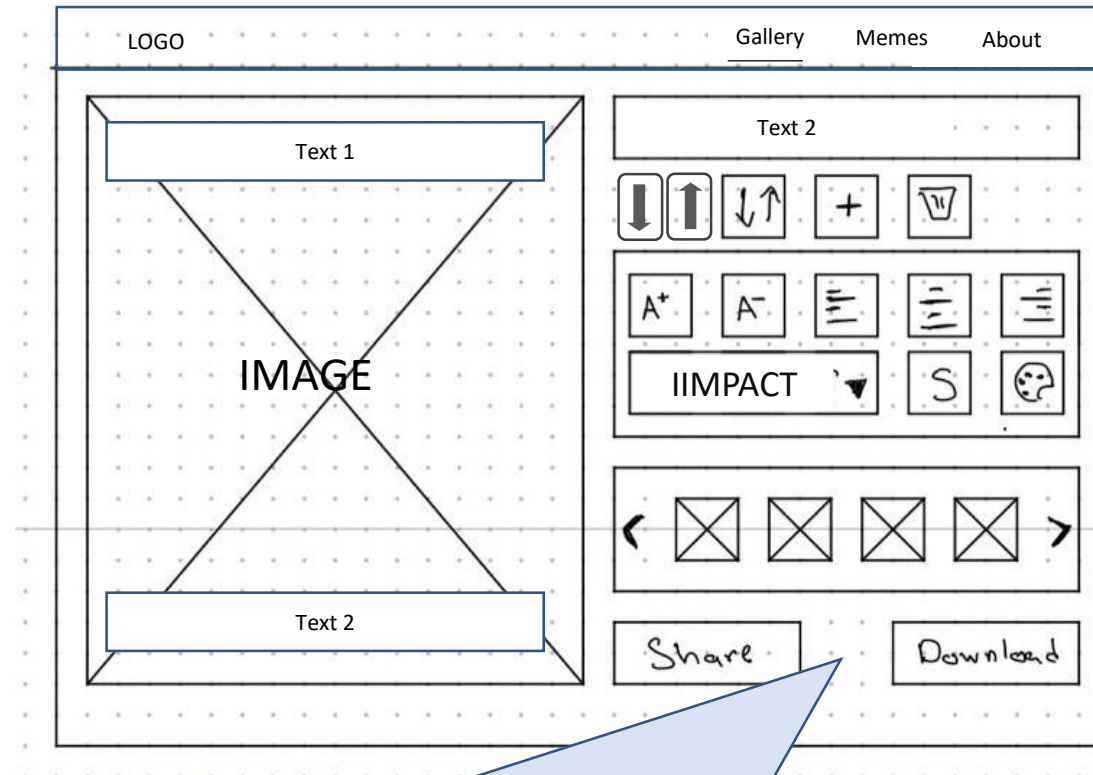

Sticker can be relocated by "drag&drop"

Sticker can be resized by dragging its corner

Clicking a sticker locate that sticker at the center of the image

These two buttons can be implemented also as One Button with A drop down to select from:

1. Download Image
2. Save to "Memes" Tab using local storage
3. Share the meme on Facebook

The “Memes” TAB includes all “saved” Memes that were created using the app. Use “Local-Storage” to implement that
